**1** Fold and unfold the diagonals and halves.
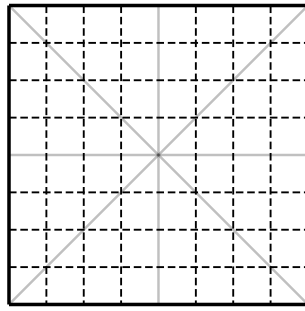

2 Fold 8ths along both axes.
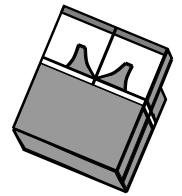

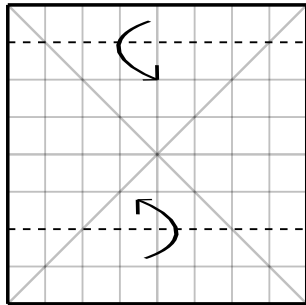

**3** .

4 Valley fold a small sliver of paper. This will visually differentiate the cover from the people in the final model.
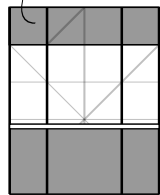

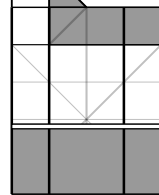

5 Pleat fold both sides.

**6** Fold and unfold. This will allow the paper to unwrap correctly in the next step.

**7** Pull paper out, using the crease from previous step as a guide.

8 Flip over.
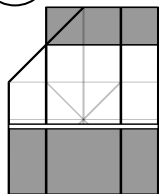

9 Valley fold.

**10** Mountain fold, and rap layer around into the interior of the model.
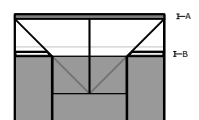

11 Flip over.

12 Repeat 6-11 on right side.

13 Valley fold so A = B. See next step for reference.

14 The height of A equals the height of B. The top edge of the inverted triangle will line up with the bottom edge of B.
