15
Complete chicken!

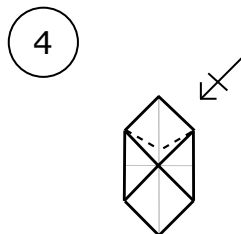

... or the Egg?

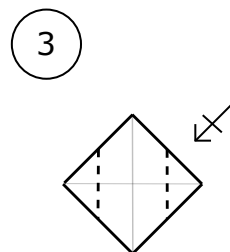

1
Fold a waterbomb base.

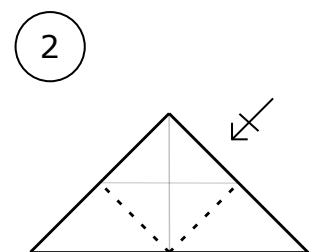

5
In progress...

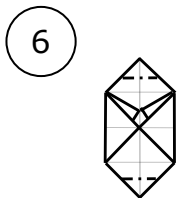

4
Valley fold both flaps at the top tip, and insert them into the pockets below.

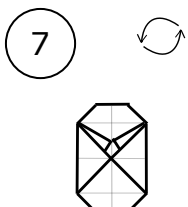

3
Valley fold. Repeat behind.

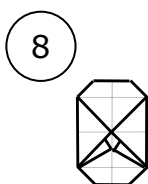

2
Valley fold. Repeat behind.

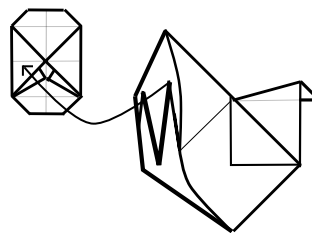

6
Sink top half of both bottom and top tip.

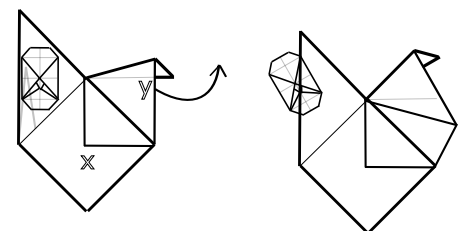

7
Rotate 90 degrees.

8
Complete egg!

Slide egg into the tail. Insert the points of the tail's crimps into the far pockets on each side of the egg.

Pinch at X and Y, then pull Y away from the model. The hinge action will lay the egg in one to two pulls.
